BUDGET 2022-23 REVISION SUMMARY

The mid-year budget review has the following key changes:

Resource Recovery Group's (RRG) operating revenue has decreased to \$16.6M (original Budget \$16.8M) and operating expenses has increased to \$22.3M (original Budget \$22.2M) due to the following results.

FAVOURABLE

- Final dividend deposit of \$53K from the Lehman Brothers (Australia) liquidation for a CDO investment in 2007. The funds will assist RRG's IT development plan eg, accounting software, SharePoint, and cloud backup.

UNFAVOURABLE

- The financial impact to RRG'S Material Recovery Facility is a reduction in tonnes and therefore revenue of 12% on previous year tonnages. (Net financial revenue loss: \$300K). One of the factors for a reduction is the uptake of the Containers for Change program by the community exceeding the projected 40% diversion of eligible CDS containers from the kerbside recycling bin rising to 60% diversion from the kerbside recycling bin for the 6 months actual. This has reduced tonnes and the associated gate fees, product sales and container redemption income.
- As a result of the end-of-life of the assets in the green waste facility, an operational review has changed from on-site to off-site processing. (Net financial loss: \$60K).
- The shredder in the FOGO Production Facility required an unplanned major engine overhaul (Net financial revenue loss: \$40K)
- Transportation and disposal costs have increased due to a high annual CPI indexation rate of 8.3% from January 2023 (Net financial revenue loss: \$50K).

1. STATEMENT BY CHIEF EXECUTIVE OFFICER

Local Governments are required to conduct a budget review between January and March each financial year in accordance with Regulation 33A of the Local Government (Financial Management) Regulations 1996 (FM).

The results of the budget review are to be submitted to Council within 30 days of the review (FM Reg 33A(2) & (3)). A copy of the review and council's recommended resolutions are to be forwarded to the Department of Local Government within 30 days of the council meeting (FM Reg 33A(4)).

This report considers the half yearly actual results (to 31 Dec 2022) and the projected estimates for the next 6 months to 30 June 2023.

Tim Youé
Chief Executive Officer

2. KEY CHANGES SINCE THE ADOPTED BUDGET

The mid-year budget review has the following key changes:

Resource Recovery Group's (RRG) operating revenue has decreased to \$16.6M (original Budget \$16.8M) and operating expenses has increased to \$22.3M (original Budget \$22.2M) due to the following results.

FAVOURABLE

- Final dividend deposit of \$53K from the Lehman Brothers (Australia) liquidation for a CDO investment in 2007. The funds will assist RRG's IT development plan eg, accounting software, SharePoint, and cloud backup.

UNFAVOURABLE

- The financial impact to RRG'S Material Recovery Facility is a reduction in tonnes and therefore revenue of 12% on previous year tonnages. (Net financial revenue loss: \$300K). One of the factors for a reduction is the uptake of the Containers for Change program by the community exceeding the projected 40% diversion of eligible CDS containers from the kerbside recycling bin rising to a 60% diversion from the kerbside recycling bin for the 6 months actual. This has reduced tonnes and the associated gate fees, product sales and container redemption income.
- As a result of the end-of-life of the assets in the green waste facility, an operational review has changed from on-site to off-site processing. (Net financial loss : \$60K).
- The shredder in the FOGO Production Facility required an unplanned major engine overhaul (Net financial revenue loss: \$40K)
- Transportation and disposal costs have increased due to a high annual CPI indexation rate of 8.3% from January 2023 (Net financial revenue loss: \$50K).

3. WHO ARE WE

Resource Recovery Group (formerly Southern Metropolitan Regional Council) is a statutory local government authority, constituted under the Local Government Act, established by its current participant local governments with a proven track record of providing efficient and sustainable resource recovery and recycling services to the local government sector since 2001.

The participant local governments have jointly agreed to establish Resource Recovery Group under an Establishment Agreement and participate in regional projects that are governed by a Participants' Project Agreement.

Resource Recovery Group (RRG) operates the Canning Vale Centre as a waste recovery precinct located at 350 Bannister Road, Canning Vale, WA 6155.

The centre has a material recovery facility for recycling the contents from yellow lid bins, a FOGO processing facility (lime lid bins) and green waste shredding from bulk collections and public entry.

We provide waste audit services and educational toolkits and programs to change residents recycling behaviour in material separation for the benefits of a circular economy and climate change impact.

The WA State Government strategies include the requirement that a consistent three bin kerbside collection system, including separation of food organics and garden organics (FOGO) from other waste categories, is provided by all local governments in the Perth and Peel region by 2025. It also introduces challenging targets for material recovery of 70% by 2025 and a target of only 15% of waste generated in Perth and Peel is landfilled by 2030.

The RRG's member local governments currently divert 65% of household waste from landfill achieving the State Government's 2020 target.

4. NET RESULTS BY BUSINESS UNIT

Table 3

The table below summarizes the financial activities of the various business units of the RRG.
